EXAMINER'S AMENDMENT

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on March 10, 2006 has been entered. Claims 1-10 are pending.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John C. Garvey (Reg. No. 28,607) on 31 May 2006.

3. The application has been amended as follows:

Art Unit: 2192

Please amend claim 10 as follows:

Claim 10 (Currently Amended) An exclusive access controlling method comprising:

- creating an electronic information name;
- attaching a version number to the electronic information name;
- holding the ~~electronic information name~~ version number in a table;
- distributing the electronic information name to users of the electronic information;
- judging whether or not the version included in the electronic information name coincides with the version number held in the table when the electronic information distributed by said distributing is subject to an access by each user of the electronic information;
- permitting access to the electronic information only when it is judged that the two version numbers coincide; and
- updating the version number held in the table, when the contents of the electronic information have been updated.

END OF AMENDMENT

Art Unit: 2192

4. The following is an examiner's statement of reasons for allowance:

Independent claims 1 and 8-10 require two separate version numbers, one held in a version number holding means (a table) and one appended to a filename (appellation) that is distributed to users for subsequent access attempts. The prior art of record fails to teach or fairly suggest the comparison of these specific types of version numbers for the purpose of preventing access to the information when the version numbers do not match, in the context of the version number updating scheme recited in the independent claims.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
